

## ***What is Proposition 65?***

Proposition 65 requires businesses to provide warnings to Californians about significant exposures to chemicals that cause cancer, birth defects or other reproductive harm. These chemicals can be in the products that Californians purchase, in their homes or workplaces, or that are released into the environment. By requiring that this information be provided, Proposition 65 enables Californians to make informed decisions about their exposures to these chemicals. For more information go to: [www.P65Warnings.ca.gov](http://www.P65Warnings.ca.gov)

## ***How Are We Complying?***

United Water Products has made substantial effort to insure that their products are safe to use and do not violate any known safety standards or regulations. Still our customers have the “right to know” that they contain trace amounts – below government established “safe harbor” levels – of chemicals known to cause cancer and/or reproductive harm in much higher concentrations or in different structural compositions.

To see the Prop 65 warning and listed chemical for a specific UNITED brand product, click on the “Warning” link for the item shown on the [unitedwaterproducts.com](http://unitedwaterproducts.com) website product page.
